

PUBLIC NOTICE
For
Air Quality Operating Permit
for Carracas CDP Compressor Station of Williams Four Corners LLC

Williams Four Corners LLC at 188 County Road 4900; Bloomfield, NM 87413 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its Carracas CDP Compressor Station. The exact location of the facility is at latitude 36 deg, 56 min, 19.44 sec and longitude -107 deg, 21 min, 14.64 sec. To aid in locating this facility, the approximate location is 21 miles northeast of Blanco in Rio Arriba County, New Mexico. This application file has been assigned an Operating Permit Number P168-R3 and TEMPO Agency Interest ID No. 1009.

Previously, the facility received an air quality construction permit and is in operation. The main purpose of the facility is to compress and dehydrate natural gas for pipeline transport. This operating permit application is for a permit renewal. Per 20.2.70.401.C.(4) NMAC, this permitting action involves a reduction in permitted malfunction emissions to five (5) tons per year (tpy) of VOCs. Additional changes incorporated include corrections to Table 106.A Allowable Emissions for Glycol Dehydrator Units 9a, 10a, 21a, and 23a. These units are controlled by installed Dehydrator Still Vent Flare Units 11, 12, 25, and 26. VOC emissions previously associated with Units 9a, 10a, 21a, and 23a are now incorporated into the associated flare (Units 11, 12, 25, and 26) emissions.

The estimated maximum air pollutant emissions to the atmosphere, from this facility after the requested operating permit is issued, are as follows. Parentheses note changes in emissions from previous operating permit – P168-R2M1. Emissions are expressed in tons per year (tpy). Nitrogen Oxides (NO_x) at 243.5 tpy (-0.3); Carbon Monoxide (CO) at 60.3 tpy (-0.5); Volatile Organic Compounds (VOC) at 74.7 tpy (-1.1); Total Particulate Matter (TSP) at 5.6 tpy (no change), Particulate Matter 10 microns or less (PM₁₀) at 5.6 tpy (no change), and Particulate Matter 2.5 microns or less (PM_{2.5}) at 5.6 tpy (no change); Total Hazardous Air Pollutants (HAPs) at 14.7 tpy (+0.1 tpy) and greenhouse gas (CO₂e) > 75,000 tpy. The facility is a major, >100,000 tpy CO₂e source of greenhouse gas emissions.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance.

The NMED has made a preliminary determination that this facility will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 1, 7, 61, 70, 71, 72, 73, 77 and 82; 40 CFR 50; 40 CFR 60 Subparts A, JJJJ, and OOOO; 40 CFR 63 Subparts A, HH, and ZZZZ; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before January 10, 2016.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P168-R3 by contacting Linsey Hurst at the New Mexico Environment Department, Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816. The Department contact in Santa Fe is Linsey Hurst at 505-476-4371. Este es un aviso de la Agencia de Calidad de Aire del

Departamento de Medio Ambiente de Nuevo México, acerca de las emisiones producidas por un establecimiento en esta área. Si usted desea información en español, por favor de comunicarse con la oficina de Calidad de Aire al teléfono 505-476-5557.
